|https://www.linkedin.com/in/boddeti-ajutesh-122315372 | Andhra Pradesh, India

Summary

Computer Science student at VIT-AP University building toward a career in full-stack web development and AI/ML. I design sleek, story-driven web interfaces and prefer shipping real projects over completing isolated exercises. Works best in deep-focus, self-directed mode.

Education

B.Tech, Computer Science and Engineering — VIT-AP University, Vijayawada, India | Expected 2029

Technical Skills

- **Frontend:** HTML, CSS, JavaScript
- **Backend:** Python, Java
- **Tools:** VS Code, GitHub, Antigravity, Claude
- **Focus areas:** Full-stack web development, AI/ML

Projects

Personal Portfolio — HTML, CSS

- Built a dark, story-driven portfolio from scratch with About, Skills, Projects and Contact sections and a contact form.
- Fully responsive across desktop, tablet and mobile using CSS media queries.

Resumate — Resume Builder (Web App)

- Built a resume builder that turns user details into a clean resume.

Andhra's Kitchen — HTML, CSS

- Built a restaurant website showcasing Andhra cuisine and its menu.

Sneakers Studio — HTML, CSS

- Built a sneaker storefront with a product showcase.

Strengths

- Visual storytelling and aesthetic-first interface design
- Learns by building: ships complete projects
- Self-driven, focused solo work
